FOR CCTV INSTALLERS, INTEGRATORS AND DEALERS

Earn every month from CCTV you install

Offer our night monitoring to your clients. You install the cameras. We watch them.

No camera changes
Works on top of what is installed

Clients you already have
No new selling

We never compete with you
We only monitor

Trained operators
Watching through the night

THE GAP

Most CCTV only records

No one watches at night
The cameras are on, but no one is looking at them.

Checked only after a theft
People look at the footage after something happens. By then it is too late.

Guards miss things
Guards get tired. Alerts are seen late. A broken camera can go unnoticed for days.

FOR YOUR CLIENTS

What your clients get

- A person checks every alert
- Alarms set off at once when operators see a threat
- A call to the guard or owner straight away
- Every event on their phone
- They know when a camera stops working
- More than one site? All of them on one screen

FOR YOU

We will never compete with you

- Monitoring is all we do. We never compete with your installation business.
- Trained operators work from our own monitoring centre.
- The client chooses the night hours, up to 11 PM to 6 AM.

HOW TO START

Three steps

1

Talk to us
Tell us about your business and the clients you look after.

2

We set up your client
We connect to the cameras you installed. Nothing is replaced.

3

You earn every month
Our operators watch your client's cameras at night, and you earn every month.

Start earning from your clients.
Add our monitoring to your installations.
