

FOR CCTV INSTALLERS, INTEGRATORS AND DEALERS

Earn every month from CCTV **you install**

Offer our night monitoring to your clients. You install the cameras. We watch them.

No camera changes

Works on top of what is installed

Clients you already have

No new selling

We never compete with you

We only monitor

Trained operators

Watching through the night

THE GAP

Most CCTV only records

No one watches at night

The cameras are on, but no one is looking at them.

Checked only after a theft

People look at the footage after something happens. By then it is too late.

Guards miss things

Guards get tired. Alerts are seen late. A broken camera can go unnoticed for days.

FOR YOUR CLIENTS

What your clients get

- ✓ A person checks every alert
- ✓ Alarms set off at once when operators see a threat
- ✓ A call to the guard or owner straight away
- ✓ Every event on their phone
- ✓ They know when a camera stops working
- ✓ More than one site? All of them on one screen

FOR YOU

We will never compete with you

- ✓ Monitoring is all we do. We never compete with your installation business.
- ✓ Trained operators work from our own monitoring centre.
- ✓ The client chooses the night hours, up to 11 PM to 6 AM.

HOW TO START

Three steps

1

Talk to us

Tell us about your business and the clients you look after.

2

We set up your client

We connect to the cameras you installed. Nothing is replaced.

3

You earn every month

Our operators watch your client's cameras at night, and you earn every month.

Start earning from your clients.

Add our monitoring to your installations.
